Outline

This is an independent review of your company's continuous improvement culture and ability, customised to suit your business needs, rather than a standard generic audit of Operational Excellence.

Key areas focused on during this review are to:

- **Have Informal Discussions with Management & Employees.**
- **Review Available Performance Information.**
- **Walk your Processes.**
- **Attend Relevant Meetings.**
- **Understand the use of Continuous Improvement Techniques.**

Initial thoughts and impressions from the above activities are summarised and presented at the end of the review, then followed up with providing a FREE comprehensive report detailing current strengths, short term wins, medium to longer term opportunities and a propose program of support.
